

CHAPTER – 17 **IT'S SPRING NOW**

KEY NOTES:

- Spring have beautiful flowers. Some flowers are small and some are big. Bees fly among the flower.
- After spring comes the summer season. The sun is over our head during this season and we get summer vacation during summer.
- Then comes the rainy season. There are clouds all over the sky and it rains day and night. We get wet in rainy season.
- Fruits ripen and sun becomes milder in autumn. We see many bullock carts carrying paddy during autumn.
- The last season is the coldest one. We need sweater during this season. We see cabbage and Cauliflower and love the warm and fire in the winter season.
