

LESSON- 6
“Manipur And Its Natural Resources”

NOTES:

Resource - Resource means anything which is available for use by man and satisfies his needs.

Type of resources:

i. Natural Resources-

Natural resources are those resources provided by nature including air, water, soil, natural vegetation, all creatures including man and the rocks and minerals.

ii. Human Resources-

Human resources refer to skilled people who could use their skills, knowledge and experience for various productive or creative activities, e.g. scientist, teacher etc.

iii. Cultural Resources-

All the productive and creative activities of man along with their skills, talents, ideas, knowledge, thoughts, and beliefs are called cultural resources.

Resources of Manipur-

Manipur is rich in natural resources. Besides these, Manipur has a lot of potential for human resources. We need to focus on education to draw out these potentials and develop our human resources. Manipur is rich in cultural resources too. Manipuri dance, theatre and sporting talent are known all over the world.

We need to develop and protect our resources and also conserve them for future generations too.

Learning Motives:

1. To let the children know about the rich resources of Manipur.
2. To let them understand that we need to develop our resources and also conserve them

Glossary:

To draw out – to extract

Conserve – to save

Judiciously – done with good judgment or sense.
